

I oppose HR 4026!  
Satelilte radio is better and I have the choice to pay for not having stupid advertising over news or weather reports.

I want my right to chose what I listen to not the stupidity of AM/FM radio.

Satellite radio is the equivalent of internet in radio.

I do not need the brainwashing of advertising if I chose to pay for my radio!

Who is affraid of competition in America?

Why you post the full adress of people commenting on the issue, where is the right to privacy, or is valid only for the nomenclatura of the governement?

STOP THIS TOTALITARIAN TENDENCIES OF THE GOVERNEMENT !
